PROFESSIONAL SUMMARY

IT Support and Business Systems professional with 2.5+ years of experience at Hitachi Digital Services supporting enterprise applications, global business users, incident resolution, service requests and SLA-driven operations. Experienced in investigating and resolving application, database, reporting and access-related issues; coordinating escalations; supporting user onboarding, UAT and system changes; and maintaining clear SOPs and support documentation. Strong customer-facing experience in Dublin, supporting employees, visitors, vendors and day-to-day office operations through professional in-person, email and phone communication.

TECHNICAL SKILLS

IT Support & Service Delivery: Application Support, Enterprise Systems Support, Incident Resolution, Service Requests, Issue Troubleshooting, Ticket Management, Escalation Management, SLA Awareness, User Support, Root-Cause Investigation, Service Delivery

Enterprise Systems & Databases: Oracle ERP, Oracle SQL, PL/SQL, MySQL, Oracle SQL Developer, Oracle APEX, Database Troubleshooting, System Validation, Data Validation, Error Investigation

Microsoft & Productivity: Microsoft Office, Microsoft Excel, Advanced Excel, Outlook, PowerPoint, Reporting, Documentation, User Onboarding, SOP Documentation

IT Service, Change & Operations: UAT, Upgrade Support, Change Implementation, Requirements Gathering, Process Mapping, Knowledge Documentation, Operational Controls, Process Improvement, Incident Reporting, Risk Awareness

Analytics & Automation: SQL, Python, Power BI, Tableau, Automated Reporting, Business Intelligence, Data Analysis, Data Modelling

Customer & Stakeholder Support: Customer Service, In-Person Support, Email and Phone Communication, Stakeholder Management, Vendor Coordination, Cross-Functional Collaboration, Workload Prioritisation

Desktop Support Fundamentals: Familiarity with Windows 10/11, desktop and laptop troubleshooting, software faults, remote support, Microsoft 365/O365.

Deployment & Device Management Familiarity: Software deployment and updates, patch-management concepts, MECM/SCCM awareness, OS-build concepts and Group Policy awareness

PROFESSIONAL EXPERIENCE

Data Analyst | Hitachi Digital Services, Hyderabad, India

Mar 2024 – Jul 2025

- Provided application and enterprise-system support to global business users, investigating reporting, data, access and operational issues.
- Managed user queries, service requests and escalations, gathering clear issue details and coordinating resolution within agreed SLA expectations.
- Investigated database and application issues using SQL and Python, identified root causes and worked with technical and business teams to restore normal operations.
- Supported user onboarding and business-system adoption, helping users understand processes and resolve day-to-day system issues.
- Maintained clear documentation of requirements, recurring issues, solutions and process improvements to support consistent service delivery.
- Automated reporting and reconciliation processes using SQL and Python, reducing manual effort by 25%; received the Hitachi Pinnacle Award for execution and collaboration.

ERP & Business Intelligence Analyst | Hitachi Digital Services, Hyderabad, India

Feb 2023 – Mar 2024

- Provided Oracle ERP and business application support for commercial order processes, resolving transactional, billing, database and system-related issues.
- Investigated application and database exceptions, coordinated with commercial and IT teams, and supported timely resolution with a focus on system availability.
- Supported ERP upgrades, change implementation, UAT and system validation, identifying issues and supporting controlled changes to business processes.
- Managed user queries and operational requests, including PO validation, system setup, shipment tracking and transaction-related issues.
- Coordinated with IT and business teams to resolve operational issues, maintain service continuity and provide clear updates to stakeholders.
- Maintained SOPs, process documentation and troubleshooting guidance to support consistent issue handling, knowledge sharing and service delivery.

EDUCATION

MSc Computing (Data Analytics)
Dublin City University, Dublin, Ireland

Sep 2025 – Aug 2026

B.Tech in Computer Science Engineering
CMR Institution of Technology, Hyderabad, India

2019 – 2023

PROJECTS

OpsResolve AI | AI-Powered Enterprise Support Intelligence Platform

[LIVE DEMO](#)

- Developed an **AI-powered enterprise support platform** using fictional operational data to demonstrate intelligent incident management, ticket classification and enterprise application support.
- Designed workflows for **SLA risk assessment, similar-incident identification, knowledge-base recommendations and escalation summaries**, combining AI concepts with enterprise support practices.
- Applied experience in **incident management, business intelligence, technical troubleshooting and process optimisation** to design practical enterprise support solutions.

XAI-Enhanced LLM-Based Agent for Residential Energy Load Scheduling

- Developed an **LLM-driven agentic AI framework** integrating XGBoost and Explainable AI (SHAP) to forecast residential energy consumption and support intelligent appliance scheduling.
- Implemented **machine learning and predictive analytics using Python**, achieving an R^2 score of **0.651** on held-out test data, with SHAP analysis to interpret model predictions.
- Designed an evaluation framework to assess **energy cost optimisation, scheduling constraint adherence and explanation quality**, supporting transparent and interpretable AI-driven decision-making.

CERTIFICATIONS

- IBM Cognos Analytics 12.0.0 Cloud Training
- Oracle Cloud Infrastructure 2023 AI Certified Foundation
- Customer Support & Zendesk Support Operations
